

# Resistenzstatistiken - Jahresüberblick

Erregerisolate aus dem niedergelassenen Bereich  
Orale Antibiotika

## u. a. Wundinfektion

|                   | b-hämolyt. Streptokokken |       |       |       | Staph. aureus |
|-------------------|--------------------------|-------|-------|-------|---------------|
|                   | Gr. A                    | Gr. B | Gr. C | Gr. G |               |
| Penicillin G      | 0%                       | 0%    | 0%    | 0%    | 75%           |
| Oxacillin         |                          |       |       |       | 3%            |
| Ampicillin        | 0%                       | 0%    | 0%    | 0%    | 75%           |
| Amoxi/Clavulans.  | 0%                       | 0%    | 0%    | 0%    | 3%            |
| Cephaclor         | 0%                       | 0%    | 0%    | 0%    | 3%            |
| Cefuroxim         | 0%                       | 0%    | 0%    | 0%    | 3%            |
| Cefpodoxim        | 0%                       | 0%    | 0%    | 0%    | 3%            |
| Tetracyclin       | 4%                       | 59%   | 4%    | 26%   | 3%            |
| Erythromycin      | 6%                       | 24%   | 9%    | 25%   | 15%           |
| Clindamycin       | 4%                       | 23%   | 7%    | 19%   | 12%           |
| Ciprofloxacin     | 100%                     | 100%  | 100%  | 100%  |               |
| Levofloxacin      | 0%                       | 1%    | 0%    | 1%    | 4%            |
| Moxifloxacin      | 0%                       | 1%    | 0%    | 1%    | 3%            |
| TMP-SXT           | 1%                       | 1%    | 0%    | 1%    | 1%            |
| Getestete Isolate | 1668                     | 1686  | 324   | 256   | 8377          |

MRSA-Rate: 3 % (ohne MRSA-Screening-Proben)

## u. a. Infektionen Respirationstrakt

|                   | Streptoc. pneumon. | Haemoph. influenz. | Moraxella catarrhalis | Pseudom. aeruginosa |
|-------------------|--------------------|--------------------|-----------------------|---------------------|
| Penicillin G      | 2%                 |                    |                       |                     |
| Oxacillin         |                    |                    |                       |                     |
| Ampicillin        | 2%                 | 20%                | 100%                  | 100%                |
| Amoxi/Clavulans.  | 2%                 | 13%                | 6%                    | 100%                |
| Cephaclor         |                    | 100%               | 100%                  | 100%                |
| Cefuroxim         | 1%                 |                    |                       | 100%                |
| Cefpodoxim        |                    | 3%                 | 0%                    | 100%                |
| Tetracyclin       | 13%                | 0%                 | 1%                    | 100%                |
| Erythromycin      | 15%                |                    |                       |                     |
| Clindamycin       | 6%                 | 100%               | 100%                  |                     |
| Ciprofloxacin     |                    | 0%                 | 1%                    | 7%                  |
| Levofloxacin      | 0%                 | 0%                 | 1%                    | 9%                  |
| Moxifloxacin      | 0%                 | 0%                 | 0%                    |                     |
| TMP-SXT           | 9%                 | 11%                | 6%                    | 100%                |
| Getestete Isolate | 184                | 1895               | 377                   | 1923                |

### Legende

- < 1% der Isolate resistent
- 1-5% der Isolate resistent
- 6-10% der Isolate resistent
- 11-20% der Isolate resistent
- 21-30% der Isolate resistent
- >30% der Isolate resistent
- Kombination nicht getestet, z. B. bei intrinsischer Resistenz

### Auswertung

- Patientenbereinigt: nur ein Erreger pro Patient pro Vierteljahr
- „Intermediär“ wird als „sensibel“ gewertet.
- Zugrundeliegende Testnorm: EUCAST
